**GENRE TERMS FOR LAW MATERIALS:
A Thesaurus
SECOND EDITION**

Compiled By William Benemann
University of California, Berkeley

“In the years since the publication of the first edition of *Genre Terms for Law Materials*, the field of legal publishing has changed dramatically, with new formats and ever-more specialized research tools appearing in law library collections. In addition, as more libraries have begun to add genre terms to their cataloging, I have received many questions about the interpretation and use of the terms in the thesaurus, and suggestions for changes and additions to the list. All of this has prompted me to edit a new, revised edition of the work.”

*—William Benemann, Compiler, Archivist and
Head of Technical Services, Boalt Hall Law Library*

This popular guide in the American Association of Law Libraries Publications Series has just been updated! Additional terminology is included, with clarifications made to existing terms at the suggestion of members of the Technical Services Special Interest Section of AALL, who have long put the thesaurus to use in their libraries. Benemann credits their input with “moving this publication from an intellectual exercise to a cataloging tool.” **Order yours from Hein today!**
