ANTITRUST MODERNIZATION COMMISSION
Report and Recommendations

The Antitrust Modernization Commission was created pursuant to the Antitrust Modernization Commission Act of 2002 and consisted of 12 members: four appointed by the President, four appointed by the leadership of the House of Representatives and four appointed by the leadership of the Senate.

The Commission was established to examine whether the need exists to modernize the antitrust laws and to identify and study related issues; to solicit views of all parties concerned with the operation of the antitrust laws; to evaluate the advisability of proposals and current arrangements with respect to any issues identified; and to prepare and submit to Congress and the President a report.

This Report sets forth the Commission's recommendations and findings on how antitrust law and enforcement can best serve consumer welfare in the global, high-tech economy that exists today.
