

Monograph Series IV: NewSpace Commercialisation and the Law

By: Tanveer Ahmad and Jinyuan Su

McGill University Institute and Centre for Research in Air & Space Law

- Explores the challenges of space law, policy, and regulation
- Addresses existing and unresolved issues in the use of space
- Contains 19 chapters carefully selected from 47 papers presented at the 3rd Manfred Lachs International Conference on NewSpace Commercialisation and the Law
- Covers the emergence of the fourth phase of NewSpace in the global space exploration and use

About *Monograph Series IV: NewSpace Commercialisation and the Law*

This title provides a smorgasbord of interdisciplinary and international papers by experienced and knowledgeable people from the industry, international institutions, academia, and government bodies in various countries. These chapters represent the state of the art in current and future NewSpace activities, and the challenges of space law, policy, and regulation. In particular, they address existing and unresolved issues and problems, as well as those that will need to be confronted within the next decade, in order to allow a responsible use of space by all stakeholders, while integrating and facilitating the rise of NewSpace activities.

Monograph Series IV will be useful to those interested in understanding the legal and regulatory aspects of the rapidly expanding global space industry, in particular policymakers, entrepreneurs, government officials, academics, researchers, and students around the world.

About the Authors

Tanveer Ahmad

Dr. Md Tanveer Ahmad is currently an Erin J.C. Arsenault Postdoctoral Researcher at the Institute of Air and Space Law at McGill University, and the Executive Director of the Centre for Research in Air and Space Law. He earned his Doctor of Civil Law (DCL) and Master of Laws (LLM) degrees from the Institute of Air & Space Law, McGill University, in 2016 and 2010 respectively. He has authored a book on climate change governance in international civil aviation, co-desk editor of a book on global space governance, and has been published in various peer-reviewed law journals. He has also written book chapters, book reviews, policy papers and working papers, edited working paper series, presented papers in various conferences, and assisted with the editing of the Monograph Series I, II & III, and the Routledge Handbook of Space Law. He is also the Editor of the Annals of Air and Space Law.

Jinyuan Su

Jinyuan Su is currently a Professor at Xi'an Jiaotong University School of Law, China. His research interests lie in outer space law, the law of the sea, and international aviation law. Dr. Su holds a PhD in International Law from Xi'an Jiaotong University. He was an Erin J.C. Arsenault Researcher (2014-2015) at the McGill Institute of Air and Space Law, a visiting research fellow (2009-2010) at the Lauterpacht Centre for International Law, University of Cambridge, and a visiting scholar (2008-2009) at School of Law, King's College London. Dr. Su is a member of Governance Group of the Space Security Index (SSI), a lead drafter for the McGill project of Global Space Governance, and a member (2016-2018) of the Global Future Council on Space Technologies of the World Economic Forum (WEF).

Table of Contents

Foreword

Ram S. Jakhu

In Memory of Dr. Qizhi He

Jinyuan Su

What Is NewSpace?

Charles Stotler

One Small Step for a Man, One Giant Leap for My Real Estate Broker:

Taking the Next Steps in Space Governance

John D. Rummel

Terrestrial Legal Considerations in Asteroid and Space Mining Activity:

Law and Policy Development

Susan L. Willshire

New Ways Forward in International Regulation of the Protozone or Sub-

Space

Joseph N. Pelton

“NewSpace” Emerging Perspectives for Earth Observation and

Geographical Information Policy

Mukund Kadursrinivas Rao & K. R. Sridhara Murthi

Some Legal Aspects of Private Space Stations

Ram S. Jakhu

From Space Station Programmes to Commercial Habitation

Eric Dahlstrom

Risk Management in the Intermediate Frontier: Insurance for Suborbital

Flight and Hypersonic Intercontinental Transportation

Andrea J. Harrington

NewSpace, Small Satellites, and Law: Finding a Balance between

Innovation, a Changing Space Paradigm, and Regulatory Control

Steven Freeland

Satellite Miniaturization: Are New Entrants about to Threaten the Existing Space Industry?

Lucien Rapp, Victor Dos Santos Paulino & Adriana Martin

“Due Regard” in Space Activities: Avoiding Harmful Contamination in the Exploration and Use of Outer Space

John D. Rummel

Legal Framework for Active Debris Removal

Ntorina Antoni

Space Debris Removal as a First Step to Realising a Legal Framework for Space Traffic Management in Outer Space

Yu Takeuchi & Lauren Small-Pennefather

NewSpace Tipping the Balance of Domestic Liability Regimes: A US Perspective

Nathan A. Johnson

Future Indian (New)Space: Contours of a National Space Policy That Positions a New Public-Private Regime

Mukund Kadursrinivas Rao, K.R. Sridhara Murthi & Baldev Raj

Legal Framework Challenges Faced by Developing Countries as New Customers of Commercial Space Application

Rosa Yazdannejat & Younes Allaghuband Hosseini

New Extension of Commercial Space Applications in India

Sanat Kaul

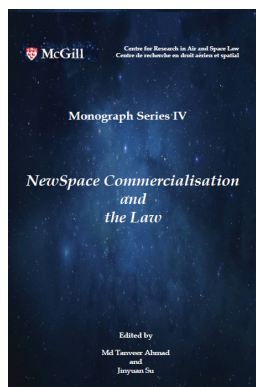

Commercial Satellites for Military Purposes

Bhupendra Jasani

A Decade of Convergence and Technology Acceleration in Non-Safety

Aeronautical Mobile-Satellite Communications

Tare Brisibe
