About Prince's Dictionary of Legal Citations

Prince's Dictionary of Legal Citations assists the legal profession in citing legal authorities according to the rules given in *The Bluebook: A Uniform System of Citation, 20th ed.* (2015). This title is a companion to *The Bluebook* (not a replacement) and applies *Bluebook* rules to a representative collection of common legal authorities. The citations included are based on *Bluebook* rules, and the abbreviations are those found in *The Bluebook* or derived from its guidelines.

Although *The Bluebook* strives to establish uniformity in citation form for court documents, the practitioner should remember that citation rules contained in local rules, state supreme court rules, rules of trial or appellate procedure, and statutes supersede *Bluebook* rules. Prince's includes both references to state court rules for citing cases and statutes, and examples of how to cite cases according to those rules.

New to the Ninth Edition

Besides updating both *Bluebook* and state court rule references, this edition has been **updated to reflect all Twentieth Edition Bluebook revisions**. The citations concerning Internet, electronic media, and other nonprint resources has been revised and expanded. Public domain information has been updated and includes additional domestic jurisdictions that now employ this form of citation. New or revised entries include **ebooks, legal dictionaries, Facebook, LinkedIn, online newspapers, newspaper editorials and opinions, plays, press releases, Twitter, American Law Institute publications** such as Restatements, uniform acts, and model codes, and examples throughout the book citing to online sources.
