Designing Law and Other Academic Libraries: Building Upon Change

Third Edition

Stephen G. Margeton

Professor Emeritus of Columbus School of Law, Catholic University of America

- **Extensively revised**
- **Helps one plan library space in times of tight budgets**
- **Brand new materials addressing today's technology**
- **Expert contributions from architects and librarians**

Designing Law and Other Academic Libraries: Building Upon Change, now in its third edition, is a must-have for every academic, library science, and architecture library. This 2017 revised edition features **extensively revised chapters** with much **new material**.

The third edition includes numerous new photographs from recently opened academic law libraries on the forefront of design. Represented among the more than 70 pictures and illustrations are American, Catholic, Georgetown, Marquette, and Oklahoma City Universities, the Universities of Maryland, Michigan, Pittsburgh, and Washington, as well as the College of William & Mary; each photo illustrates unique features and eye-catching décor.

Eight new librarian and architect contributors provide expert guidance on new and traditional topics, from Leadership in Energy and Environmental Design (LEED) to WiFi connectivity to display cabinetry. These include Patricia Andrasik, The Catholic University of America, School of Architecture and Planning (LEED certified buildings); Frances Brillantine, The Catholic University of America (displays and exhibits); Patricia Cervenka, Marquette University (libraries without walls); Len Davidson, The Catholic University of America (systems librarians); Jim Heller, William & Mary (library additions and renovations); Lee Peoples, Oklahoma City University (law libraries designed for learning); Patricia Scott, Loyola University of Chicago (urban, high-rise libraries) and Steve Young, The Catholic University of America (library as place).

While many chapters cover **important evolving trends** such as libraries designed for learning, libraries without walls, and libraries as placeholders, this classic, introductory, 550-page manual continues to serve as a starting point for librarians, architects, deans, faculty and institutional administrators new to the academic design and construction process. While the text collects in one volume the basic information one needs to know about the sequencing and progression of a large construction project, the core of the text focuses on planning for academic library spaces, operations, and services. Particularly useful are the many chapter footnotes that refer readers to experts in the field for more in-depth information.

Expanded appendices provide additional resources, including a recently updated annotated bibliography of more than 200 books and articles organized by library design topic. To optimize the book's usefulness to the busy professional, a comprehensive table of contents and index provide many points of entry into the work.

Designing Law and Other Academic Libraries

Table of Contents

- Chapter 1. Designing Library Spaces That Encourage Learning
- Chapter 2. Getting Started: The Team
- Chapter 3. Library “Without Walls,” as “Place” and as “Placeholder”
- Chapter 4. Needs Assessment and Program Statement
- Chapter 5. Design Development
- Chapter 6. Construction Documents: Working Drawings, Schedules and Specifications
- Chapter 7. About Floors and Urban Library Doors
- Chapter 8. Heating, Ventilation and Air-Conditioning (HVAC) Leadership in Energy and Environmental Design (LEED)
- Chapter 9. Electrical Power
- Chapter 10. Physically Challenged Patrons
- Chapter 11. Acoustics
- Chapter 12. Shelving
- Chapter 13. Lighting
- Chapter 14. Staff Work Spaces
- Chapter 15. Special Collections
- Chapter 16. Displays and Exhibits
- Chapter 17. Furniture
- Chapter 18. Microforms
- Chapter 19. Computers
- Chapter 20. Security
- Chapter 21. Signage
- Chapter 22. Patron Amenities
- Chapter 23. Photocopier/Printer/Scanner Services
- Chapter 24. Staff Amenities
- Chapter 25. Deliveries and Storage
- Chapter 26. Plan for Expansion – Making a Major Renovation
- Chapter 27. Naming Opportunities
- Chapter 28. Transition, Occupancy, and Punch Lists
- Chapter 29. Building Milestones
- Appendix I. Designing Library Spaces that Encourage Learning: Survey Questionnaire
- Appendix II. Annotated Bibliography
- Appendix IIIA. Needs Assessment
- Appendix IIIB. Needs Assessment & Program Statement Document
- Appendix IV. Special Collections in Academic Law Libraries
- Appendix V. Sample List of Naming Opportunities from a Midsize Law School Library
- Appendix VI. Chronology of a Law School Design and Construction Project
- Appendix VII. American Bar Association Section on Legal Education and Admissions to the Bar
- Index

About the Author

Stephen G. Margeton is Professor Emeritus at Columbus School of Law, Catholic University of America. His expansive professional career includes assistant reference librarian in the American-British Law Library Reading Room of the Library of Congress, the first full-time law librarian of Steptoe & Johnson, part-time positions as evening reference librarian at the American University Law Library, and legal research instructor at the George Mason University Law School. In 1985, he was appointed Librarian of the Supreme Court of the United States, where he also served as a statutory officer of the court until 1988. He served as the director of the Judge Kathryn J. DuFour Law Library of the Columbus School of Law from 1988 until his retirement.
