- First and **only resource of its kind!**
- **International companion to *The Bluebook***; fills in gaps and goes well beyond the existing coverage
- **Ground-breaking title** perfect for scholars, professors, students, legal practitioners, and anyone with an interest in international legal citation and research
- **Uniform citation authority** and research guide for countries throughout the world

About This Series

In view of the fundamental differences between national and international sources of law, citation rules found adequate for domestic legal research often are inappropriate when applied to international and foreign legal materials. *The International Citation and Research Guide (The Greenbook)* is a ground-breaking project tailored to the needs of an international readership by providing information useful for worldwide and highly diverse professionals.

The ICRG set, conveniently organized into global regions, is a source of foundational and comprehensive citation standards for scholars working with all types of international and foreign materials. It presents each citation standard in the context of that country or organization's history and legal institutions. It is also a general resource of basic legal background on international organizations and countries that would otherwise be difficult to research. It can be used as a companion to *The Bluebook*, whose coverage of international sources is limited.

About the Editors

The International Citator and Research Guide (The Greenbook) is compiled and edited by student editors of the *ILSA Journal of International and Comparative Law*, at Nova Southeastern University, Shepard Broad College of Law. These efforts were coordinated and supervised by Professors Jim Wilets, Pearl Goldman, Jane Cross and Joseph Hnylka at the Shepard Broad Law Center.
